

King Kong Production Vehicles

Coronavirus – Our Commitment to Customers and Employees

Nothing is more important to us than your safety. We are doing everything that can be done to ensure the well-being of our employees, and of our customers when you rent one of our vehicles.

We are working diligently to make sure everything we do meets or exceeds the guidelines of the Center for Disease Control and the World Health Organization.

We Pledge to share with you all our procedures and protocols and be fully transparent.

WORRY FREE VEHICLE CLEANING AND WHAT WE'RE DOING TO KEEP YOU SAFE

King Kong has voluntarily taken proactive steps to help our customers have a safe, healthy rental experience. This includes the implementation of a new process by which vehicles are sanitized using a high-grade, sterilizing disinfectant, the provisioning of PPE for all our employees, and the availability of a number of products designed to keep you and your crew as safe as possible.

- Electrostatic Fogging machines – EPA certified to kill 99% of germs and Eco-Friendly
 - Used by Delta & United Airlines, NY Jets, San Francisco Muni ++
- Driver training and education to perform cleaning while on set with proper disinfectants
- Deep cleaning and sterilization of every vehicle prior to a rental
- Many vehicles will be sealed after cleaning to ensure no contamination
- Vehicle Modifications
 - Plexiglass dividers for makeup and office spaces
 - Touch-free restrooms
 - 2 & 5 Room Flex trailers (each room can be used for production, talent, makeup or wardrobe)
